

# NCI Center for Bioinformatics Informatics Seminar Series

---

## Information Standards and Clinical Research

9:00 until 11:00 AM  
May 7, 2001

---

EPN Conference Room H

### **“Controlled Health Vocabularies – Vocabulary Structure and High-Level Quality Indicators an ANSI (ASTM E2087) and ISO (TS17117) Standards”**

Peter L. Elkin, MD, FACP

Associate Professor of Medicine and Medical Informatics

Mayo Medical School

Mayo Clinic, Rochester

---

### **"Clinical Data Standards and their Implications for Cancer Information"**

Chris Chute, MD, DrPH, FACP, FACMI

Professor of Medical Informatics

Division of Health Sciences Research

Mayo Clinic, Rochester

Overview of Dr. Chute's talk:

- Content (Vocabulary)

- Structure (Models)

- Messaging (Interoperability)

- Relationships with Existing Cancer Information Standards and Conventions

- Potential for Strong Synergies with Cancer and Genomics Communities
